

Technical Visit to Trade and Industry Tower

Date & time: 21 Apr 2018 (Sat) 10:00am-12:00noon

Location: 3 Concorde Road, Kowloon City, Hong Kong 九龍城協調道 3 號
(Assemble at 9:45am at the main lift lobby)

Assembly time & place: 9:45am at the main lift lobby of Trade and Industry Tower
(How to get there: https://www.tid.gov.hk/english/aboutus/access_titower.html)

Project information: The Trade and Industry Tower consists of 22 storeys above ground and a single storey basement, accommodating an office tower and a community hall. Being the first completed government building in Kai Tak Development Area, the project is set for demonstration purpose. In keeping with the “Green City” concept in Kai Tak Development Area, emphasis of the project has been placed on greening and energy conservation. With the energy efficient features and renewable energy technologies adopted in the building, the total electricity consumption of the building is anticipated to be approximately 25% less than normal office building.
